Box No. IV Text of the abstract (Continuation of item 5 of the first sheet).

The invention relates to a method of making an organic electronic device and articles. The method comprises advancing a web, a flexible substrate, applying a first electrode, a light-emitting layer and a second electrode, wherein at least one electrode layer is continuous in the direction of the advancing web. The method may further comprise cutting a portion from the web forming an organic-light emitting device having a dimension in the direction of the advancing web and an area.
